

## **BUG BOUNTIES**

Ends November 21st.

### **Disclosure Policy:**

- Before discussing your findings publicly, errors must first be privately disclosed to Zap in order to receive the bounty. This allows us time to correct the error.
- The bounty rewards are invalid if the vulnerability submitted is already known by the Zap team, if it is disclosed by other bounty hunters without permission, or it is found to have been exploited

### **Rules:**

- Provide detailed reports with reproducible steps (the Zap team can reproduce the bug by following the report)
- When there are multiple reports on the same issue, the first one submitted will be rewarded (if all the requirements are met)
- Rewards are at sole discretion of Zap bug bounty panel
- All rewards are subject to applicable law
- Hunters are responsible for all taxes
- Testing cannot violate any law, compromise data or steal funds that are not owned by the tester

### **Eligibility:**

- Current and former Zap employees and contractors are not eligible for rewards
- Social Engineering is not eligible
- Audit report is not eligible

**Rewards :** ( All numbers and currency are just example, pending adjustment)

- Critical: \$20,000

### **Loss of funds**

Bugs that enable attacker to steal ZAP or ETH from contracts under review, or from oracles/users as a result of interacting with contracts under review

- High: \$5000

### **Locked ZAP, dots**

Bugs that result in unusable zap or dots in contracts under review or as a result of interacting with contracts under review

- Medium: \$2500

### **Losing/Minting dots**

Bugs that enable attackers to mint more dots than expected, or cause users to loose their bound dots unexpectedly.

- Low: \$1,000

### **Unexpected behavior**

Bugs that cause contracts under review to behave differently than designed but not enable attackers to steal , freeze or destroy funds/dots

Available pool of rewards : \_\_\_\_

### **Scope :**

+ Zap-ethereum-api :

<https://github.com/zaproject/zap-ethereum-api>

Contracts in scope :

ZapCoordinator.sol

Bondage.sol

Registry.sol

Database.sol

Arbiter.sol

Dispatch.sol

ZapToken.sol

### **Reporting :**

- Send email to [kumail@zap.org](mailto:kumail@zap.org)
- Include name and link (optional)
- Include details of the bugs and steps to reproduce or

code

- Address for payment (must be valid Ethereum address which can accept ZAP token)
